EDUCATION

B.E. Computer Science and Engineering

2025 - 2029

Chennai Institute of Technology, Chennai

INTERNSHIP EXPERIENCE

Virtual Internship - EduSkills

- Completed a structured virtual internship program with EduSkills, gaining hands-on exposure to real-world project workflows and industry-aligned technical practices.

PROJECTS

Blockchain-Enhanced Payment Security System

Oct 2025 - Nov 2025

- Built a system that leverages blockchain technology to secure digital payment transactions.
- Developed the backend using Node.js to handle transaction processing and block generation.
- Implemented the blockchain ledger along with hashing and verification logic in JavaScript.
- Designed a front-end interface using HTML, CSS, and JavaScript to demonstrate the end-to-end transaction flow.
- Improved payment security and ensured immutability and trust through decentralized verification.

EduVision AI - Student Performance Prediction System

Jun 2026

- Built an ML-powered student performance prediction system using Python, Streamlit, and Linear Regression on a 30,000-row synthetic dataset spanning five academic features.
- Developed interactive dashboards for teachers and students with CSV-based data management, dynamic academic health suggestions, and personalized AI-generated feedback.
- Built a parallel React version of the same system to demonstrate cross-framework capability using Python, scikit-learn, Streamlit, and React.

AI-Powered Resume Screening System

Jun 2026

- Developed an intelligent resume screening tool that automates candidate evaluation by matching resumes against job descriptions using NLP and ML techniques.
- Extracted and analyzed key skills, experience, and qualifications from resumes, ranking candidates by relevance score to streamline recruitment.
- Built using Python, NLP, and scikit-learn; reduced manual screening effort and improved candidate shortlisting accuracy.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java

Web Technologies: HTML, CSS, JavaScript, Node.js, Express.js

Tools: VS Code, GitHub

Core Areas: Problem Solving, Data Structures, Object-Oriented Programming

CERTIFICATES

- Python Essentials 1 and 2 - Cisco Networking Academy
- C Essentials 1 and 2 - Cisco Networking Academy
- MongoDB Certification - ICT Academy
